DETAILED ACTION

Allowable Subject Matter

1. Claim 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for using Internet Protocol Measurement Protocol packet. The prior arts in the record fail to teach or make obvious to a method comprising the IPMP packet including instructions for a recipient of the IPMP packet, said instructions including an instruction to process the IPMP packet in accordance with an actual packet type and an actual port number included in a first and second predetermined location, respectively, rather than a faux packet type and a faux port number that are included in an actual packet type field and an actual port number field, respectively within a structure of the claim. These features are claimed in the independent claims 1, 8 and 15 and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
